

Engine Rebuilders

Parts Department

Our Parts Department carries a wide range of engine parts. If we don't have it in stock, in most cases we are able to get in overnight, as our machine shop deals with a wide range of engines. We have very good contacts around New Zealand and also in Australia, where we are able to get parts in two or three days.

As well as engine parts we have the Valvoline range of oil and oil filters and additives, race car parts, Marshall Batteries and gas stays. We also exchange recondition cylinder heads, as well as supplying good used parts.

Come and see us for all your:

- Automotive parts
- Pistons, ring, bearings and gasket sets
- Marshall Batteries for cars, motorcycles and trucks
- Valvoline oil and filter supplier
- Gas Stays, new and regasing
- Performance engine parts
- Rod ends and jam nuts
- Race suits, gloves, boots, harness
- Wurth products
- Replacement pre-run engines, gearboxes
